

Step Up For Soldiers was founded in November 2004, to assist two wounded soldiers who suffered with loss of limb injuries. The plan was to build what was necessary to make these two soldiers and their families comfortable in their own home as they rehabilitated.

Soon after, the Readiness NCO for this unit asked if we could help build a memorial, for the four fallen soldiers. In January 2005, we started the *Fallen Soldier Memorial Project*, at the grounds of the National Guard Headquarters, off Kerr Ave in Wilmington, NC. This memorial was dedicated to: CPT. Cash, SFC Voss, SPC Carrisquillo, SPC Desens on June 22nd, 2008. We continue to maintain this memorial garden and it is our sad duty to add four more memorial markers for: SFC Kramer, SGT Bittker, SGT Adams, & SGT Baldeosingh. Killed in combat in Iraq, June 29th, 2009.

Step Up for Soldiers is proud to announce a new project, "*Soldier Build.*" Upon receiving a plot of land in the Monkey Junction area of Wilmington, NC, the idea to build a transitional home for a veteran with a family who is attending a local university, emerged. Our Ground Breaking was held June 29th 2014. Mr. Mickey Webb, a general contractor in Wilmington, has generously offered to head up the building project for Step Up For Soldiers.

Now we need your help. The house will be built along the lines of a Habitat for Humanity build (i.e. with hard work, sweat and determination).

Step Up For Soldiers is starting a donation program in order to supply the materials needed for the house and the overall project. This will be placed in book format, with every needed piece of material listed, and when donated, who supplied that material.

In addition to monetary contributions, we are also seeking the assistance of licensed professionals who would be willing to donate their expertise. As this is a Veteran's signature house, we will also be asking local Veterans groups, church groups, social organizations and other hardworking volunteers for their help to build this house. Benefits of participating in this project include positive exposure from radio and TV coverage, as well as web site and social media posts.

By completing this house, we as a community, are assisting Veterans in their new journey of life while insuring that they are able to remain with their families, we are doing more than just building a house: we are building a stronger family, and thus a stronger community.
