**P O Box 652**  
**Carolina Beach NC 28428**

Step Up For Soldiers is an all-volunteer 501c3 non-profit organization.

Step Up For Soldiers was started in 2004 to help returning soldiers with loss of limb and mobility problems. We have expanded it to help the families, because they suffer along with the service member.

We help with putting in wheelchair ramps, widening doorways or whatever they need to help make the soldier feel whole and renewed, while he rehabilitates at home.

We operate through donations and fundraising. Some of the fundraising activities are the Step Up For Soldiers Backyard BBQ, Step Up For Soldiers Combat Mud Run, Step Up For Soldiers Golf Tournaments and other groups/organizations help by raising funds and using Step Up For Soldiers as their charity of choice.

Some of the events we do are also give backs to the military and their families such as the Step Up For Soldiers Annual Kid's Fishing Tournament, Step Up For Soldiers 4<sup>th</sup> of July Party, Step Up For Soldiers Packages From Home, Step Up For Soldiers Family Day at Jungle Rapids Water Park.

We thank you for your support!

Sincerely,  
Thomas Russell  
Founder/President

## What we want to accomplish

Step Up for Soldiers is proud to announce a new project, "Soldier Build." Upon receiving a plot of land in the Monkey Junction area of Wilmington, NC, the idea to build a transitional home for veteran, with a family who is attending a local universities, emerged.

With the help of Mr. Don Bosco, the plans for a 1400 square feet house will be completed. We hope to start this project mid-January, 2014. Mr. Mickey Webb, a general contractor in Wilmington, has generously offered to head up the building project for Step Up For Soldiers.

Now we need your help. The house will be built along the lines of a Habitat for Humanity build (i.e. with hard work, sweat and determination). Step Up For Soldiers is starting a donation program in order to supply the materials needed for the house and the overall project. This will be placed in book format, with every needed piece of material listed, and when donated, who supplied that material.

In addition to monetary contributions, we are also seeking the assistance of licensed professionals who would be willing to donate their expertise. As this is a Veteran's signature house, we will also be asking local Veteran's groups, church groups, social organizations and other hardworking volunteers for their help to build this house. Benefits of participating in this project include positive exposure from radio and TV coverage, as well as web site and Facebook posts.

By completing this house we as a community, are assisting Veterans in their new journey of life insuring that our veterans are able to remain with their families, we are doing more than just building a house: we are building a stronger family, and thus a stronger community.

Thank you,  
Thomas Russell
